👤 PROFILE

I am a results-driven professional with a proven track record in operations management, technology project leadership, coaching, and inventory control. Skilled at bridging business needs with technical solutions, I have led the development of in-house web and mobile platforms, rebuilt legacy systems, and enhanced digital capabilities for educational institutions. With meticulous attention to detail, I excel at guiding teams, streamlining systems, and delivering operational excellence. My philosophy is simple: once committed, I see it through. Driving projects from concept to completion with integrity, focus, and measurable impact.

🎓 EDUCATION

Master of Applied Research in Social Sciences, Singapore University of Social Sciences, Singapore

January 2021 — January 2026

- Cumulative GPA 3.75
- Master's Thesis – Career Aspirations of Young Workers in Singapore: A Mixed-Methods Study

Skills Acquired:

- Designed and executed a mixed-methods research study, integrating quantitative (logistic regression analysis) and qualitative (thematic analysis) approaches.
- Applied Bronfenbrenner's Ecological Systems Theory to synthesize findings within real-world Singaporean contexts.
- Conducted statistical analysis using SPSS and qualitative coding using MAXQDA.
- Managed the full research lifecycle from proposal to defense, meeting all deadlines.

BA (Honours) Psychology with Business, Singapore University of Social Sciences

January 2017 — January 2020

- Second Class Honours (Cumulative GPA 3.60)
- Capstone Project – The Lived Experiences of Freelancers in Singapore: A Phenomenological Study
- Skills Acquired: Conducted in-depth interviews, analysed qualitative data, identifying themes, patterns, and insights, engaged in active and empathetic listening, and managed the project from conception to completion

EMPLOYMENT HISTORY

Tuition Centre Manager (Operations) & Technology Project Lead **AGrader Learning Centre**

July 2020 — Present

Operations Leadership

- Directed end-to-end tuition centre operations, ensuring efficient service delivery across staff, students, and parents.
- Scaled centre capacity from 2 to 5 classrooms, driving 80% enrolment growth (290 → 522 students within 6 months).
- Conducted recruitment for part-time staff, ensuring cultural and quality alignment.
- Maintained meticulous documentation and streamlined application processing to improve efficiency.
- Managed financial processes via XERO for accurate, timely invoicing.
- Fostered transparent stakeholder communication with HQ, parents, and teachers.
- Delivered exceptional client service, proactively resolving issues and inquiries.

Digital Transformation Leadership

- Led digital transformation initiatives to modernise tuition operations through in-house web and mobile platforms.
- Defined system requirements, business workflows, and user journeys aligned with operational needs.
- Managed remote offshore developers through sprint planning, UAT governance, and production launches.

Inventory Control Specialist

Fullerton Healthcare Group

August 2015 — September 2022 (*Half-day morning role*)

- Accurately picked and packed medications, ensuring precise inventory levels.
- Recorded and tracked stock movements to optimise turnover and minimise costs.
- Processed and organized incoming stock from suppliers, reducing lead times.
- Conducted biannual cycle counts to verify inventory accuracy and resolve discrepancies.
- Managed package loading/unloading, prioritising accuracy in a fast-paced environment.
- Adhered to safety and regulatory standards to ensure a compliant, hazard-free workplace.

Kumon Centre Assistant

Chrysalis Campus & I-Journey Learning

November 2011 — February 2019

- Supported administrative operations to ensure smooth centre functioning, contributing to higher enrolment and cost savings.
- Acted as primary parent liaison, resolving inquiries promptly and maintaining strong relationships.
- Monitored student progress and provided feedback to tailor learning plans.
- Managed and organised student worksheets with accuracy.
- Handled fee collection, arrears tracking, and maintained strong financial processes.
- Coordinated events such as award ceremonies, parent meetings, and open houses to engage the school community.

★ KEY PROJECTS

1. Integrated Operations Platform Development

(EverLoop, CAdmin Student Management, HR Payroll & Relief Systems)

Role: Project Lead | 2024–Present

Objective

- Design and implement an integrated digital ecosystem to modernise tuition centre operations, replacing fragmented manual workflows with connected systems supporting academic, staffing, and operational functions.

Business Impact

- Unified student management, staffing, and operational workflows across platforms.
- Improved coordination between enrolment, scheduling, attendance, payroll, and relief allocation.
- Strengthened operational visibility and reduced reliance on manual processes.
- Created a scalable foundation supporting future organisational expansion.

Key Contributions

- Led end-to-end platform development across web and mobile.
- Defined product requirements, workflows, and user flows.
- Coordinated offshore development team (2 web, 1 mobile).
- Oversaw UAT and production readiness.

2. ERP System Implementation (Oct 2025 – Present)

Role: Project Lead (Operations & Systems)

Objective

- Develop and implement a centralised ERP system to replace manual spreadsheet-based workflows and improve operational visibility across different departments.

Business Impact

- Standardised core operational processes across purchasing, inventory, and reporting.
- Improved data accuracy and reduced manual tracking dependencies.
- Created scalable infrastructure supporting future growth.

Key Contributions

- Led ERP design based on business operational requirements.
- Translated stakeholder needs into system workflows and functional specifications.
- Coordinated developers and stakeholders to align technical delivery with operational realities.
- Oversaw testing, feedback cycles, and rollout planning.
